

## STATE OF THE ART LOUDSPEAKER TECHNOLOGY

The DALI KORE reproduces music that is as close to the original recording as possible. With virtually no distortion or colouration, nothing is added, and nothing is subtracted.

From the quietest breath to the largest orchestral climax, it recreates every musical nuance with endless dynamic response and true fidelity.

Music is probably the only real magic I have encountered in my life. There's not some trick involved with it. It's pure and it's real. It moves, it heals, it communicates and does all these incredible things.
